- ✓ **MAINTENANCE REPORT:** Discussion was had regarding water usage and conservation. Dale proposed the need for a water conservation ordinance. The proposal was inspired by Moscow's water conservation efforts which includes a defined watering season. (May 15 to October 1). The ordinance would outline emergency measures, such as alternating watering days based on odd and even addresses, to address water shortages during unexpected situations. It was suggested that consistent conservation efforts could prevent the need for emergency measures and maintain healthy water reserves.

SCHEDULED AGENDA ITEMS:

- **WATER RESTRICTIONS:** Council discussed current water restrictions set forth in *Resolution 2023-03* and recommended amending the existing resolution by modifying the watering schedule due to earlier nightfall. The decision to keep the restrictions otherwise, was influenced by the unusually low water levels at the reservoir, which is mainly due to a rain-deficient summer. It was acknowledged that while many residents are adhering to water restrictions, there are still individuals who are not following the guidelines. Dale also updated the council on the new water tank, stating that it will go online as soon as all the necessary tests are conducted successfully. Councilman Bill Abbott made a motion to approve amending Resolution 2023-03 for final approval by Mayor Corr. It was seconded by Councilman Patrick Cordova. ***Motion carried.***
- **RESOLUTION 2023-05:** No action.
- **PUBLIC HEARING:** Council set a public hearing date for October 25th for the purpose of hearing public comments and testimony regarding the new and increased building permit valuations and fees in the City of Troy.
- **VERIZON PROPOSAL:** Council reviewed and discussed proposed wireless project received from RYKA LAND SERVICES on Behalf of Verizon to install a new wireless tower. The Water Tank parcel that is being inquired about is where the new tank is currently built and therefore there is no space for the proposed tower at this time.
